1. After a review of the Attachments cited in Reference A we have eliminated Subject of Attachment A as suitable for recontact. Subject has been in frequent contact with REINFORCED citizens in the past. We suspect that Subject's anti-Russian and anti-Communist protestations are subject to questioning. Until more time has transpired to enable us to further analyze this individual's motivations and past contacts with REINFORCED citizens we feel that [] [] should not attempt to recontact him. However, we do feel that [] [] should be made aware of the individual's existence. [] [] is too valuable an asset to expose unnecessarily to what appears to be a smooth KGB operator.

2. With respect to Subject of Attachment K we consider that recontact would be highly desirable. Should the report by Identity 2 cited in Reference B have fallen into KGB hands we can expect that Subject will be doomed forever to playing on the home team. Nonetheless his dissatisfaction will tend to grow. For this reason through our recontact we may assist the development of a future asset in place. Further checks will be run before Headquarters will grant approval for actual recontact.

3. The Subject of Attachment L is not acceptable for recontact. He was at one time in contact with ALCOH/4 who was a member of an internal net recruited by REINFORCED personnel. This net was later successfully rolled up by the KGB. An analysis of correspondence regarding Subject indicates that he is probably KGB controlled.

4. We do feel that the question of recontacting personnel inside Latvia should be taken up with [] [] to determine his reaction. Based upon a favorable reaction you may discuss with him the individual cited in paragraph 2 above, but avoid reference to the source of this information, [] []
